

CradlePoint AER, ARC and COR International Support Drawer Statement

May 20, 2015

AER2100LP3-EU, AER2100LP3-UK (includes certified MC400LP3 modem)
 AER2100LPE-GN (includes an MC400LPE-GN modem)
 ARC CBA850LP3-EU, CBA750B-LP3-EU (each includes an MC400LP3-EU modem)
 ARC MBR1400LPE-GN, CBA850LPE-GN, CBA750B-LPE-GN (each includes an MC400LP3-GN modem)
 COR IBR600LP3-EU, IBR650LP3-EU, IBR600LPE-GN, IBR650LPE-GN,
 COR IBR1100LP3-EU, IBR1150LP3-EU, IBR1100LPE-GN, IBR1150LPE-GN
 COR IBR350P2, IBR350P2-INTL, IBR350LPE-GN
 Discontinued:
 COR IBR600P(-INTL), IBR650P(-INTL), IBR600LP2-EU(-PWD), IBR650LP2-EU
 ARC MBR1400LP, CBA750B-LP (each includes a certified MC200LP modem)
 COR IBR600LP, COR IBR650LP, COR IBR600LP-PWD2
 ARC MBR1400LP2-EU, CBA750B-LP2-EU (each includes a certified MC200LP2 modem)
 ARC MBR1400LP3-EU (Discontinued),

Geography	Products

Middle East (Bahrain, Kuwait, Qatar, Saudi Arabia, Qatar) & South Africa	Product Certifications for these countries and products are ongoing. See cradlepoint.com/product-certifications or CP representative for current certifications IBR1100LP3-EU IBR600LP3-EU AER2100LP3-EU, AER2100LP3-UK CBA850LP3-EU MC400LP3-EU IBR350P2-INTL
Mexico	IBR350P2 (pending)

Canada Products include US/Canada Power adapter. Europe & Middle East ARC and COR IBR6x0, IBR350P2-INTL products include US, UK, EU power adapters. AER EU comes with EU power adapter. AER UK comes with UK power adapter. IBR1100 comes with a direct wire GPIO cable for vehicle installations (AC adapter can be purchased separately).

Certifications

See cradlepoint.com/product-certifications for product specific certifications and certificate downloads.

There are four main types of certifications to consider:

1) Regulatory/Legal (required):

Regulatory certifications include FCC, IC and CE which provide legal standing to sell a device into the USA, Canada and the European Economic Area respectively. Some countries may not have their own regulatory bodies and will accept FCC or CE mark.

2) Cellular Industry Certification (sometimes required)

Cellular certifications include PTCRB and GCF-CC. These certifications mean the devices properly connects to UMTS/HSPA+ & EDGE/GPRS/GSM networks. USA and Canada uses PTCRB, EU uses GCF-CC.

3) Carrier (usually not required)

Carrier (or operators) certifications are commonly required in the USA and requested in Canada but are rarely required in other countries/regions. If required, additional operator-specific certifications may be pursued on a business priority basis. Legally, the devices may be activated on carriers without any additional certification.

4) Industry standards (not required)

Cradlepoint devices have received WiFi Alliance certification (if applicable) and are RoHS and RoHS-2 compliant. Some products also have additional certifications such as SAE or MIL-810G for shock and vibration or UL for safety.

Note: The IBR600LPE-GN / IBR600LPE-AT, IBR600P / IBR600P-AT, IBR600LP / IBR600LP-AT, IBR1100LPE-GN / IBR1100LPE-AT products are considered identical for the purpose of regulatory and cellular industry certifications, however, the -AT versions have AT&T specific settings required by AT&T that can result in undesirable behavior on other networks. CradlePoint is unable to support the -AT versions of our products on carriers other than AT&T. It is strongly recommended the generic models be used on any non-AT&T network. The -GN versions of the products are for use on T-Mobile USA, Canadian (and in the future CSpire and US Cellular) carriers only.

WiFi Channels Note: CradlePoint products with a -INTL and -EU/-UK SKUs include a special build of code that enables and disables WiFi channels to comply with EU law. The -INTL and -EU SKUs are not legal to use in North America (USA, Canada). The -INTL, -EU and -UK SKUs are required for use in Europe for products with 5GHz WiFi (AER2100, IBR1100). For enabled and disabled channels by geography: http://en.wikipedia.org/wiki/List_of_WLAN_channels

Country Certifications: Legally, we know the following certifications cover the following countries. Some additional countries may accept one or more of these certifications as well but may not officially be part of their governing body: **FCC:** 50 States, Guam, Puerto Rico, Virgin Islands. Plus: Anguilla, American Samoa, Cayman Islands, El Salvador, Federated States of Micronesia, Guatemala, Marshall Islands, Northern Mariana Islands, Palau, Panama

IC: Canada, provinces

CE: (European Economic Area) Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, England (UK), Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, The Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey
Plus: Andorra, Georgia, Gibraltar, Maldives, Monaco, San Marino, Sao Tome & Principe, Seychelles, Vatican City, Guadeloupe, Martinique, French Guiana, Reunion Faroe Islands, Greenland, Guernsey, Jersey, Isle of Man, Montserrat

Certification definitions:

- **FCC:** Federal Communications Commission
- **IC:** Industry Canada
- **CE Marking:** European Community Marking
- **PTCRB:** certification forum by North American cellular operators
- **GCF-CC:** Global Certification Forum Conformance Certification Criteria
- **WiFi Alliance:** trade association
- **RoHS:** Restriction of Hazardous Substances Directive

See cradlepoint.com/product-certifications for product specific certifications and certificate downloads.
