

Cradlepoint MBR1200B

MOBILE BROADBAND ROUTER

Wireless WAN connectivity for small business or remote office

- + Ideal for small business and home office
- + Easy to install and set up
- + Automatic failover to 3G/4G cellular
- + Automatic failback when wired connection resumes
- + High-performance internal WiFi antennas
- + Tested with 15 of the latest 3G/4G USB modems

WIRELESS WAN CONNECTIVITY

The Cradlepoint MBR1200B router enables easy-to-install wired and wireless connectivity in small business or remote office locations. Ideal for small businesses, home and home offices, and recreational vehicles; the Cradlepoint MBR1200B provides wired Ethernet, and 3G/4G wireless WAN connectivity to keep you and your business up and running.

SMALL OFFICE EASY

The MBR1200B router includes many features found in expensive, enterprise-class routers at a fraction of the cost. With minimal setup and maintenance, including our pre-installed software, it has “right out of the box” simplicity.

cradlepoint.com/mbr1200b

ALWAYS CONNECTED

- Use as primary connection to the Internet with wired or wireless broadband.
- Ensure against loss of productivity and business opportunity with automatic failover to 3G/4G/LTE cellular when the wired connection is disrupted.
- Load balance across the multiple wired and/or wireless connections when additional bandwidth is required.

SECURE AND RELIABLE

- LAN connections are protected with advanced WiFi encryption.
- Main office access and business transactions are protected by VPN capability, and other security features to ensure your network stays secure.
- Designed for small office/home office deployments.
- Engineered for day-in, day-out 24/7 Internet connectivity.

REMOTE MANAGEMENT, SUPPORT, AND SERVICES

- Rapidly deploy and dynamically manage networks at geographically distributed locations with NetCloud Manager, Cradlepoint’s next generation management and application platform.
- When your applications are mission-critical, you need the assurance that only CradleCare Support can provide, or extend our 1-year limited hardware warranty with CradleCare Extended Warranty.

MBR1200B Mobile Broadband Router

Key Features and Benefits

Internet Access and Device Connectivity

Plug-and-play support for over 125 of the most advanced broadband data modems (LTE, HSPA+); optional security cap available to prevent device theft

5 Ethernet 10/100 LAN/WAN ports for Ethernet-enabled devices or landline Internet (up to 2 WAN, up to 5 LAN, 5 total)

Wireless LAN – WiFi (802.11 b/g/n) supports up to 64 connections at a time

Business Continuity: Failover/Failback

Automatic failover to wireless WAN connection when wired WAN disruption occurs, automatic failback when wired WAN connection is restored

Load balancing across multiple wired and wireless WANs for more bandwidth

Proactive alerts when failover occurs through optional Cradlepoint NetCloud Manager

Flexibility

Remote management with optional Cradlepoint NetCloud Manager

SNMP v1,2,3

Two SSIDs, with individual security, separate critical traffic

“WiFi-as-WAN” mode enables use as a WiFi repeater, WiFi bridge or as a WiFi-to-Ethernet adapter for Ethernet-enabled devices

Two Ethernet ports can be configured to “WAN Mode” to provide wireless and wired failover and load balancing

Data usage management and alerts to monitor data usage and avoid overages

Security

IPsec VPN (2 concurrent sessions) with GRE tunneling option, also supports pass-through VPN connections (IPSec, L2TP, PPTP)

WEP, WPA, WPA2, WPA2 Enterprise and AES encryption for secure WiFi

Stateful packet inspection firewall and NAT (network address translation) to prevent unwanted access to connected computers

Variety of security features (URL filtering, traffic filtering, DMZ, virtual server, port forwarding) for safer Internet access

Zone-Based Object Firewall with host address (IP or FQDN), port, MAC address, and reputation

Service, Support, and Warranty

CradleCare Support with technical support, software upgrades, and advanced hardware exchange – 1-, 3-, and 5-year options

Limited 1-year warranty included with hardware repair or replacement – extend warranty to 2, 3, or 5 years

Specifications

DATA IN USB modem (2), 10/100 Ethernet ports (2) (cable/DSL/satellite modems), WiFi (as WAN) wireless 2x2 MIMO “N” WiFi 2.4GHz (802.11 b/g/n)

DATA OUT WiFi (802.11 b/g/n), five 10/100 Ethernet ports (WAN/LAN switchable)

TEMPERATURE
0 °C to 40 °C (32 °F to 104 °F) operating
–20 °C to 70 °C (–4 °F to 158 °F) storage

RELATIVE HUMIDITY (non-condensing) 10% to 85%, operating
5% to 90%, storage

SIZE 9-in x 5.1-in x 1.6-in (230mm x 130mm x 40mm)

CERTIFICATIONS FCC, CE, IC, WiFi Alliance, 802.3

What's in the Box

MBR1200B with internal 2x2 N WiFi antennas

12V / 1.5A power supply

5-foot Ethernet cable

Setup guide with warranty information

Requirements

Either active mobile broadband plan with USB modem with a cellular provider or Ethernet-based Internet connection (DSL, Cable, T1)

Browser (to configure router) Minimum of Firefox v2.0, Internet Explorer v7.0, Chrome, or Safari v1.0

Router Details

WAN Security NAT, SPI, ALG, inbound filtering of IP addresses, port blocking, service filtering (FTP, SMTP, HTTP, RPL, SNMP, DNS, ICMP, NNTP, POP3, SSH), protocol filtering, WAN ping (allow/ignore)

Redundancy and Load Balancing Failover/Failback with 4G/3G /Ethernet with rule selection, Advanced Load Balancing options (round robin, spillover, data usage, rate), WAN Failure Detection

Intelligent Routing UPnP, DMZ, virtual server/port forwarding, routing rules, NAT-less routing, route management, content filtering, website filtering, local DHCP server, DHCP client, DNS, DNS proxy. ALGs: PPTP, L2TP, PPPoE passthrough, IPsec passthrough, FTP (passive), FTP (active), MAC address filtering, dynamic DNS

Management Cradlepoint NetCloud Manager for remote configuration, updates, management and alerts (subscription-based); web-based GUI (local management); remote WAN web-based management w/access control (HTTP, HTTPS); SNMP v1, v2c & v3. One-button NetCloud OS upgrade; modem configuration, update and management, modem data usage and alerts

Performance & Health Monitoring Modem Health Management (MHM) improves connectivity of modem, SSID-based priority, WAN port speed control, several levels of basic and advanced logging for troubleshooting

VPN (IPSec) Tunnel, NAT-T and transport modes. Device to Cradlepoint, Cisco/Linksys, CheckPoint, Watchguard, Juniper, SonicWall, Adtran and others. Hash (MD5, SHA128, SHA256, SHA384, SHA512), Cipher (AES, 3DES, DES), support for 2 concurrent connections, GRE tunneling
