

Cradlepoint MC400 Integrated 4G LTE Modem

Dual Modem Technology for More Bandwidth and Higher Availability

RETHINKING WHAT'S POSSIBLE AT THE EDGE

The MC400 Integrated 3G/4G/LTE Modem fuses enterprise reliability with unparalleled agility for networking at the edge. Adding a second MC400 modem provides enterprises greater bandwidth for additional users and today's demanding applications. In addition, more and more enterprises are demanding the ability to support diverse LTE carriers within a single router for high availability requirements.

- + Load balance and add burst bandwidth for peak periods
- + Deploy multiple wireless backup connections to help acquire 99.99% uptime

Each modem includes two SIM slots for even more data plan diversity options. The Cradlepoint MC400 is available in the following versions:

- + Verizon
- + AT&T
- + Sprint
- + Generic (additional carriers in the U.S. & Canada)
- + Europe

COMPATIBLE PRODUCTS

- + AER3100 Series
- + AER2100 Series
- + AER1600 Series
- + ARC CBA850*
- + ARC CBA750B*
- + ARC MBR1400*
- + COR IBR1100 with Dual-modem Dock

*ARC products support a single modem only.

FEATURES

- + Dual integrated modem capability
- + Dual SIM slots in each modem
- + Active GPS (available on most models)
- + Adds support for Verizon XLTE (Band 4 AWS)
- + Adds support for AT&T LTE Band 2 & Band 5
- + Adds support for Sprint LTE
