

Cradlepoint MC400 Modular Modem

The MC400 Modular LTE Modem combines enterprise reliability with Gigabit-Class LTE performance. Cradlepoint MC400-capable branch, mobile, and IoT routers can be easily upgraded to include industry-leading capabilities such as dual modems and LTE Advanced Pro.

- Provide more usable bandwidth for burst or peak usage by adding the MC400 modular modem to a Cradlepoint router.
- Deploy multiple wireless backup connections to help reach 99.99% uptime.
- Each modem includes two SIM slots for even more data plan diversity options.
- The Cradlepoint MC400 is supported on most operators in all countries where Cradlepoint routers are sold:
 - MC400-1200M (North America FirstNet or EU) LTE Advanced Pro
 - MC400LP6 (North America or EU) LTE Advanced
 - MC400LP4 (AT&T, Verizon, T-Mobile & Canada) LTE
 - MC400-600M-C (North America FirstNet) LTE Advanced Pro
 - MC400LP5 (Asia Pacific or Saudi Arabia) LTE Advanced

Compatible Products

- AER2200
- COR IBR900*
- AER1600
- COR IBR600B & COR IBR600C*
- ARC CBA850
- COR IBR1700

Benefits

- **Higher availability:** Insert an MC400 to add a second active LTE link for primary & failover connectivity
- **Future-proof your network:** Field upgrade existing routers to the latest modem technology
- **Ultimate WAN Diversity™:** Combine 4G LTE with dual-modem, dual-SIM, & multi-carrier functionality; Ethernet; &/or WiFi-as-WAN
- **Locate assets:** Active GPS with support for CAD & fleet management, ensures vehicles can always be located
- **Flexibility:** Auto-switch SIM cards when you've reached your data plan cap

Features

- Offers second modem capability
- Dual SIM slots in each modem
- Active GPS**
- Support for public safety networks & Band 14
- Support for Gigabit-Class LTE Advanced Pro
